Realization Turnkey delivery

For over 50 years, Losberger De Boer has actively supported local authorities, clubs and investors by designing, manufacturing and building sports halls or covers for outdoor sports equipment.

Our Padel court covers are meticulously designed to ensure year-round profitability and playability, regardless of your geographical location.

Acoustic comfort and uniform natural lighting are assured through our extensive range of industrialized concepts, which can be tailored to your specifications to meet your unique needs.

Our innovations provide sustainable roofing solutions that reduce environmental impact both during construction and operation.

To guarantee quality follow-up, we are committed to providing you with a single point of contact—an expert in their field who will be by your side throughout every stage of your project until its successful completion.

A Solution for Every Need

Our Padel track covers are aimed at audiences seeking to enjoy Padel in both summer and winter, ensuring pleasant playing conditions while adhering to a controlled investment budget. For this purpose, we have developed two types of solutions to meet your requirements: Sport Halls & Covers.

	Sports Hall	Courtyard
Costs	● ● ● ● ●	● ● ● ● ●
Acoustics	● ● ● ● ●	● ● ● ● ●
Weather protection a controlled	● ● ● ● ●	● ● ● ● ●

Our Sport Halls and Courtyard solutions are offered with two roofing types: Double Curvature & Flat Membrane, with technical guidance provided through Flat-TEX technology.

Flat-TEX membranes (Prosport models)

The choice of architecture plays a pivotal role in integrating your equipment into its environment. It can also progressively impact the cost and aesthetics of your project, aligning with your expectations.

We have developed dimensions that are either "standardized" to cater to a broader audience or completely "tailor-made" to make your project stand out.

Double curvature (Abrisport model)

Our commitment to the success of your projects also entails compliance with the sporting templates of all our covers, adhering to the Tennis – Padel Quality Plan.

Our constructions come with a ten-year guarantee and are designed to meet the requirements for establishing facilities open to the public, adhering to French construction rules (Eurocodes).

Design Your Covered Padel Facility

Sports Building

Whether you are creating a new complex or covering existing Padel courts with a Losberger De Boer building, our solution ensures year-round playability. We define the "building" by covering the roof and facades, guaranteeing complete waterproofing, protection from adverse weather conditions within your gaming area, and athlete comfort.

Padel club de L'Hers 31 (model Prosport)

Our buildings have a minimum height of 7 meters (with an optional 9 meters). They are available for two tracks and are designed to be cost-effective from construction to operation. Furthermore, they comply with FFT standards and are eligible for subsidies (contact us for more information).

The Strengths of Our Sports Buildings

- Acoustic comfort (for players and residents)
- Uniform lighting without shadow areas
- Playing comfort in all seasons
- Profitability guaranteed year-round

What Is Included in Our Offer:

- Technopile foundations
- Structure and frame (aluminium or LC wood)
- Translucent membrane cover
- Anti-condensation system
- Cladding or mixed facades with membrane
- Exterior joinery – EP evacuation
- Electrical installation – fire safety

Padel de Mont Saint Aignan 76 (model Ecosport)

Our Sports Building Solutions by Costs:

Flat-Tex

Double curvature

Sports Courtyard

Similar to our buildings, our sports courtyards are designed for creating new complexes or covering existing Padel tracks. Losberger De Boer courtyards provide protection against UV and adverse weather conditions for most of the year, thanks to our specially designed facade membranes for Padel (with a height starting from 3 meters).

Padel de Mont Saint Aignan 76 (model Ecosport)

Padel court covers with our sports courtyards are manufactured with minimum dimensions identical to buildings and comply with FFT standards. Opening up to the outdoors allows you to enjoy the environment while participating in a fun and accessible sport for all.

The Strengths of Our Sports Covers / Courtyards:

- Weather and UV protection
- Integration into the site
- Visibility for players and spectators
- Simplified coverage of existing tracks

What Is Included in Our Offer:

- Technopile foundations
- Structure and frame (aluminium or LC wood)
- Translucent membrane cover
- Facade protection starting from 3 meters
- Rainwater treatment
- Electrical installation – lighting

Choose Quality

For all our offerings, we provide a wide range of options to best align with your needs. Share your expectations with us, and together, we will find the right solution for your project.

Turnkey delivery

To ensure your peace of mind, we offer comprehensive project management, taking charge of:

- Structural work & paving
- Padel field
- Sports equipment installation
- Technical aspects

Additionally with our partners, we offer:

- Architectural services
- Building permits
- Comprehensive advice on sports projects

Living Space – Annexes

Beyond Padel courts, adding a reception area allows you to expand your facility, providing a welcoming space for athletes and visitors.

In fact, this integrated space within your sports equipment offers multiple functional areas.

Connected Sports Area

Manage reservations for your slopes, control remote access, or generally oversee your equipment with ease through our "connectivity" offer, which is available in conjunction with your coverage.

Photovoltaic Panels

Our covered solutions, under the technical guidance of "Flat-Tex" technology, facilitate the integration of solar production systems on roofs. Embark on your energy transition journey today and reduce costs with clean and renewable energy.

By choosing a Losberger De Boer solution, you are guaranteed that all parts and structures are designed and manufactured by our own team of dedicated professionals committed to your success. We exclusively collaborate with partners who share our daily values of professionalism, creativity and commitment.

To ensure the success of your project, we employ cutting-edge industrial production technologies. This guarantees that you will receive top-notch materials, whether it's an aluminum frame, glued laminated wood, or textile membrane covering.

In addition to our quality standards, we prioritize minimizing the ecological impact of our actions and products.

Our commitment to quality is reinforced by certifications including Qualibat, Qualisport, ISO 9001, and the Tennis Padel Quality Plan. Our innovative "Flat Tex" technology, acknowledged through a Technical Assessment, assures the reliability and durability of your future equipment.
