Production
Turnkey projects
Project management

For more than 50 years, **Losberger De Boer** has been designing, manufacturing and assisting local authorities in the realisation of their projects for sports buildings, covered areas and leisure facilities.

Whether it is a courtyard or a closed building, with a textile cover for natural light or a steel sheet for an insulated version, we offer solutions adapted to the uses and needs of local authorities.

About us

As an innovation accelerator, Losberger De Boer is involved in territorial development through its eco-construction approach in the field of sports and public facilities.

Our expertise

Building for the future

Losberger de Boer buildings fit perfectly into the rural or the urban landscape.

Fit for purpose, structures are designed for any sport to provide comfort and functionality.

Our know-how enables us to offer standard and bespoke solutions for the public as well as the commercial sector.

The facilities will comply with all UK and EU regulations in relation to structural design and engineering.

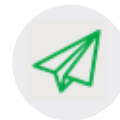

The sports facilities have a long life span, subject to final design, to create a sound return on the investment.
